Opinions on to the Results of the Recent Tidal Wave and Cyclopic Disturbances—What Will the Harvest Be?"

At this distance it looks very much as though Carl Schurz were running for United States Senator on Henry Villard's railroad.

The anti-snapping Democrats have been asking ever since the election what they are to receive when the spoils are divided. Perhaps Mr. Croker can tell them.

One of the griefs of the smash-up is that Uncle Jerry Rusk must retire from the Department of Agriculture before completing his great projects for the welfare of the American farmer.

The wonder is the Republican strength in Pennsylvania, which struggled against the tidal wave in grand style, notwithstanding the fact that the party in that state is divided against itself.

Young Mr. Quincy of Massachusetts frankly owns that it was himself that elected Mr. Cleveland. But for this confession he might have escaped detection. Nobody had ever suspected him.

As we understand the situation, Chairman Harrity will neither run after a Cabinet position nor away from it. If the office seeks the man, Mr. Harrity will doubtless be found at home when it calls.

Already the cry comes up from the South for the immediate revival of the old system of state banks. The Democracy declared in its platform this year that the National banks must go and the Southern agitators are determined that it shall keep its word.

Distinction, if not glory, awaits the Democratic statesmen who rises in Congress at the forthcoming session and offers a resolution affirming his party's doctrine that Protection is unconstitutional. Where and who is the man that dares first to attempt it?

The high-water mark of American wages has been passed until the election of another Republican President. The LEDGER deplores this fact, but it is useless to deny it. The victory at the polls of the advocates of "cheap labor" means a stoppage in the gradual rise of American wages.

If the Democratic party carries out the principles of its platform the results will be so disastrous to American industry that Free-trade will be swept off the face of the American continent four years hence. If it ignores its platform and fails to keep its promises to the people they will know that they were humbugged in 1892 and will sweep the humbugs from power now the less. Either way the Democratic lose.

Murat Halstead truly says that the American capital invested in manufactures does not care for Protection so far as it covers the margin of difference between the wages of labor in Europe and the wages in America. If the laboring men—the workmen—want to try Free-trade they will have to do it at their own expense. The capitalist can take care of himself. The Democratic party has won the Presidential election on the rankest Free-trade platform that ever was before the American people. The workmen have largely voted for it, and they will have to enjoy the consequences. As there is a lowering of the Protection on the industries that have been denounced by damages until they have become obnoxious, down will go with it the trades, and all the strikes that can be organized will be in vain. The mills can be closed. The capital may go West or to Europe or vanish. The skilled laborer can take European wages or leave the shops and go to till the soil. The farmers of Kansas and Alabama can tell of the brilliancy of the prospect. High wages have caused strikes. We shall see whether the European scale in America will make peace.

### FROM OUR EXCHANGES.

BITS OF NEWS THAT WILL INTEREST "LEDGER" READERS.

FRANKFORT CAPITAL.—The newspaper of Louisville is unfortunate in that, because of local considerations, they are forced to publish much matter which causes weariness of spirit among out-of-town readers. For instance, the slash about the "Satellites" ball, and the King and Queen, and the Dukes. All these things combine to make plain, honest, every day people tired.

GEORGETON, (O.) NEWS.—Allen O. Myers has been publishing the West Virginia paper ten days. He was compelled of necessity to leave the state because of the election, offering and taking most any kind of a bet. He went around gathering up his winnings with a wain in his hand, into which he thrust the bills. A gentleman who saw it says the valise looked to him as if it was nearly full. The last heard of him was negotiating for one of John Robinson's elephants upon which he intended to paint "G. O. P." and ride it to Brown county.

Louisville Times.—Publishers of the big paper in Louisville have been engaged for some time past of an exhibit they will make at the Fair. It is as good as settled now that both a morning and evening paper will be issued in Machinery Hall every day. The paper will be printed on presses sent to the fair as exhibits, and it is possible that they will be printed on paper made on the exposition grounds. This exhibit would enable persons who have not witnessed the interesting process of producing a great daily newspaper to see every feature of the work from the manufacture of paper to the delivery of the story of the events of a day to subscribers.

FLEMINGBURG DEMOCRAT.—The success of every legitimate enterprise in a town adds just so much to the general fund of prosperity, hence it is to the interest of every citizen of this place and especially of every merchant, to use every effort to make a success of the Million-Kendall tobacco factory. It is a home enterprise, established by home people with home capital. The money paid out for wages is spent here among our people for groceries, dry goods, rents, taxes, newspaper subscriptions and all the other trades and occupations get a share of it as goes. Such being the case, every merchant should make it a point to handle their goods as far as possible, and to buy from an outside factory a grade of goods which the home factory can supply. This is business and this is what makes a prosperous town.

CHAMPION CORBETT wants to enter the ring just once more and prefers that it be with Mitchel.

### MASON CIRCUIT COURT.

BUSINESS TRANSACTED BY THE REASSEMBLED COURT—REPORT OF THE GRAND JURY.

R. F. Gault was appointed committee of his son, Henry P. Gault.

The trial of Charles Skinner under indictment for feloniously entering the house of R. R. Frost, resulted in his acquittal.

The indictments against Jeff Clayton and William Sons for the same offense were filed away.

The appraisement and sale bill of the estate of J. D. Blaibrough was produced by J. W. Alexander, committee.

Sheriff John W. Alexander handed in account of \$60 which was sworn as true certified.

The Grand Jury reported forty-one indictments in all.

The following is the final report of that body:

"We have diligently inquired into all the violations of law that have come to our knowledge, and in no instance have we failed to detect where the evidence is clear. In this case we sufficiently convinced ourselves of the guilt of the accused; believing as we do that the peace, dignity and welfare of the community can only be maintained by strict and swift enforcement of the laws. We have been compelled in two instances to prosecute for murder, the highest crime known to law.

"Our greatest trouble has been in finding witnesses who are willing to testify against parties who are notorious dealers in gambling or unlawfully selling of liquor to minors. From the number of know-nothings we find in such cases one might be induced to believe in the high order of knowledge of nothingness that we have disposed of all the cases that were brought before us, except one, that of John Clarke, colored, held over under bond of \$1000. We failed to get any reliable witness to bring before the grand jury to testify to the next Grand Jury.

"We have examined the jail and other parts of the city and find them all to be in good sanitary condition.

"We tender our thanks to the officials of the court for courtesies shown us, and especially to the Sheriff, Jailer and Clerk, who have been prompt and efficient in all their duties."

—S. M. WORTHINGTON, Foreman.

Mrs. R. C. Rice,

Of Milford, Neb., says she suffered greatly from a complication of diseases of female weakness and liver and kidney troubles. Her health was fully restored by using Dr. Hale's Household Tea, the most pleasant and most effective medicine known. 35 and 50 cent package at Power & Reynolds' Drugstore.

### NEW AND NEW APPLICANTS.

AGUASTA CHRONICLE.—The editor of *The Aguasta Chronicle* is an applicant for the Postoffice at Maysville. So far Mayor Chennoweth and R. B. Loud are his only opponents. Personally all the gentlemen are strangers to us. Our sympathies are naturally with the editor, for he is expected to do more work for the party with less thanks and poorer pay than any man in it.

### A RELIABLE MAN.

M. J. Gault, a Justice of the Peace at Springfield, Mich., has been bound on a certain's Colic, Cholera and Diabetes Remedy saved his life. He had been brought down with bloody flux for three weeks when he commenced using this medicine.

He also says it saved the lives of three railroad men in that vicinity. He also says it saved the lives of three railroad men in that vicinity. "Squire Griner is a reliable and conscientious man, and whatever he says can be depended upon. For sale by Power & Reynolds, Drugists.

### GORDON'S MINSTRELS.

GORDON'S MINSTREL COMPANY does not claim to be the greatest show on earth, and that is probably why it gives better satisfaction than some minstrels with more claim and promise than performance.

This entertainment is recommended as of merit, being clean, refined and in every way up to the standard of minstrelsy.

Their gold band is famous the country over.

At Washington Opera-house Tuesday evening, November 23d. Prices 25, 35, 50 and 75.

### A RAY MAN'S BARGAIN.

A special from Circleville, O., to *The Commercial Gazette*, says that Officer Will Palmer was detained upon a peculiar case of larceny. Mrs. Eugene Roman, the wife of a Frenchman, sold a sack of gold which contained a gold watch and chain and \$500 in money, and notes amounting to an equal sum, for 5 cents. Levi, to whom she sold it, when arrested, denied all knowledge of the contents. In fact Mrs. Roman identified a hat and shirt he was wearing when brought into the Station-house. Levi weakened, and gave her \$480 in money and a check for \$20, besides the watch and chain.

The storm which has done its work very thoroughly throughout Wisconsin, came Friday morning a smash-up occurred on the Chicago, Milwaukee and St. Paul road between Platteville and Mineral Point, but the railroad officials have been able to have the service partially restored again as far as possible.

They have experienced the greatest difficulty in getting trains through, as our train dispatchers have not been able to send a single message for over twenty-four hours. Large gangs of men have been sent out and the repair is being repaired as rapidly as possible, but it will be some time, I think, before telegraphic communication will be opened up. I have heard no reports of any loss of life, but it is possible there may be many more of that sort.

The fall in temperature, while not severe for actual winter, was very sharp for this time of year, and it came so suddenly that I do not think many were prepared for it.

From reports of the commissioners of agriculture of various states, and from trustworthy newspapers, it appears that the crop will scarcely exceed six million bushels.

INDIANAPOLIS STREETS RAILWAY DEPT.

INDIANAPOLIS, Nov. 19.—There is a quiet rumor to the effect that an eastern syndicate has purchased the Indianapolis street railway system. There are various figures named as the price, but the road, the controllers, however, being held, were placed at \$4,250,000. Parties here in position to know will neither affirm or deny the report.

### WOMAN'S ADVOCATE OFFICERS.

MEMPHIS, Tenn., Nov. 19.—The officers elected by the Association for Woman's Advocate were: President, Mrs. Elizabeth Lord Tift, New York; treasurer, Henrietta L. Walcott, Massachusetts; auditors, Caroline Biglow, New York; Louise M. Stearns, New York.

### PROGRESSIVE EAGLE.

MISSOURI CITY, Nov. 19.—The new edition of *The Progressive Eagle* was published yesterday. The paper is well printed and the illustrations are good.

The letter to the editor of the paper is well written and the illustrations are good.

THE COTTON CROP.

CHARLESSTON, S. C., Nov. 19.—The News and Courier has had an exhaustive examination made as to the condition of the cotton crop of the south. It shows that the crop is short far beyond the calculation of experts, and that the greater part of the land has been damaged and ruined, and that the late top crop will amount to practically nothing.

From these reports, it appears that the crop will be very small, and that the price will be high.

### PROGRESSIVE EAGLE.

COLUMBUS, O., Nov. 19.—There was no news of the recent election in the official vote of the records, but as no more counties have filed their abstracts.

The counties still out are Lawrence, Stark, Lucas, Fayette and Franklin. It is expected that all of these will be in by next Tuesday.

Rain, Snow and Wind in the Northwest.

### TELEGRAPH WIRES PROSTRATED BY THE RAIN FREEZING ON THEM.

A FROST OF SNOW IN WESTERN WISCONSIN AND SOUTHERN MINNESOTA.—A large section isolated.—Messages to St. Paul by the Way of San Francisco.

CHICAGO, Nov. 19.—For the past thirty-six hours not a click has been heard from the telegraph instruments connecting Chicago with the great north and Minnesota as a center has been practically isolated. Up to midnight Friday night the situation was unchanged. The only way the twin cities can be reached from Chicago is via Milwaukee, Oregon, Union, San Francisco and Helena, Mont., and back by the northwestern route. With a view of obtaining some reliable news from the storm-bound section, the Associated Press had reporters watching for news from the north, and succeeded in interviewing trappers and others who might have the necessary information.

On the arrival of the passenger train on the Chicago, Milwaukee and St. Paul road Friday night, two officials of that road, Messrs. A. J. Easton, station master, and E. P. Ripley, traffic manager, stepped off, after a trip through Wisconsin.

In speaking of the storm of Thursday night and Friday morning, Mr. Easton

"It has been a very severe storm through western Wisconsin, northern Iowa and southern Minnesota. It started in with a heavy wind and rain, and the train suddenly turned to snow. I don't know where it is about a foot of it all through western Wisconsin and southern Minnesota."

The rain froze making the telegraph wires, making them useless, and the wires were broken, and any number of telegraph poles were broken in every direction. We have experienced the greatest difficulty in getting trains through, as our train dispatchers have not been able to send a single message for over twenty-four hours. Large gangs of men have been sent out and the repair is being repaired as rapidly as possible, but it will be some time, I think, before telegraphic communication will be opened up.
